Description

With unrivaled panoramic ocean, city, and mountain views and approximately 8,400 square feet of living space, Hacienda de los Santos PV is one of the finest villas in Puerto Vallarta. It is also one of the few remaining true 7-bedroom haciendas in the city. The best of the old and new meets within the villa, combining Mexican Hacienda tradition with modern construction technology (the house was built to meet California earthquake standards). Hacienda de los Santos is tastefully furnished with antiques, custom furniture, and modern art. It offers up-to-date amenities such as a bar/coffee pantry, complete with refrigerator, in the master bedroom. But the "star of the show" is undoubtedly the stunning views of the city, Banderas Bay, and the Sierra Madre mountains.
